Bounce Foundation - "BOUNCING-BACK WORLD"

This year, not only has Bounce Foundation moved to Bellevue, WA from its Mercer Island, WA origins.

It has moved to larger projects that continue to benefit teens & families, with Safety and Environmental concerns.

Originally conceived of as a Cyber Café and Foundation devoted to teaching DARE principles (and responsible alcohol and tobacco respect to teens), BOUNCE continues in that same vein.

Now the thirteen original girls, who were all twelve at the time, are at universities around the country.

But one daughter, co-President with co-President, Naomi Glick, has maintained

an active role in Bounce.

Natasha Lekwa and her father, Neal Golden, his stage name, have continued to

serve other Foundations with musical contributions.

Bounce Helps Shift Focus

Bounce Foundation encourages its youth, partners, business & industry to adapt to the new world.

Where expansion used to be the hallmark of excellent, today smarter methods of recycling and frugality win out.

And Environmental & Foundation supporting activities and events lead the way.

ENVIROGRAPHICS is a program whereby all ages - individual, schools, clubs, foundations - can raise funds. And, can heighten awareness.

ENVIROGRAPHICS– Bounce Brings Nature Inside

We're all doing our best, per our awareness level. All we have to do, is raise our awareness levels.

On of the Benefits of Bounce Membership is knowing that you're on the ground floor.

You share with a proven Visionary & former Top 100 franchiser, that great ideas can grow.

Take Bounce. It was supposed to end when the Cyber Café was razed. However, its usefulness and programs just seemed to valuable.

Now what 13 twelve year old

girls dreamed about, and then acted on, has morphed into a valuable Foundation providing civic services.

ENVIROGRAPHICS - its target is launching 1,000,000 large format Environment images in public places by 2010.

We don't think BIG. We think SURVIVAL! Bounce programs have shifted to our biggest shared world issues. And, we teach you How to ACT! And provide the vehicles.

History of Bounce

*"We have nowhere to hang out, and when kids have nowhere to hang out, they can get into trouble."
Andree Burns, 13*

Not everyone thought it could be done. Or, even that it was a good idea. But City Hall did..

A prominent, wealthy community without a Teen Club in 2002. Then, a roll-over accident involving drugs and alcohol and a high school junior.

Suddenly, interest on the part of 13 twelve-year old teen girls,

afraid and entering high school, was born and then tested.

Yet these fearless thirteen girls started a Cyber Café - an after-school "Safe haven" for teens.

The Dream became Reality. When the Café was razed - for "Progress," the café died.

Now, the Foundation & café model have a brand new life.

Bounce's Help-a-Foundation Years

PV - "School of Champions"

Between 2003 and 2007, Bounce had no budget and no home.

Neal Golden, the co-founder, who re-discovered his voice while waiting in the Cyber Café, goes Professional—to offer Foun-

dations here and in Mexico "Bounce-donated" FREE music. Then, the concerts in Puerto Vallarta five-star resorts started pointing the way.

Assisting Eagles Wings with a website and Children of the Dump, co-founder Golden saw opportunities for Bounce.

Bounce could act as a mediator and impresario - bringing Foundations and the Public together.

Ideas sprang up. Many events later the concept is gaining applause. Bounce's core music program will be "Golden NW Jazz Express" in 2007.

Golden Radio Africa - Take on HIV/AIDS

Bounce Co-founder Neal Golden reunites with his college mate, Menkir Esayas, from Ethiopia.

The two compare notes. Together they find HIV/AIDS' pandemic in Africa is one of the most important issues to address in the world today.

Menkir's non-formal Distance Learning Educational plan, now in use daily to over 385,000 Africans, will turn its attention to HIV/AIDS. Learning about the

body and how to protect it. With some countries showing 10-35% of the people HIV/AIDS infected, Golden Africa Radio will offer 24/7 education, counseling and HIV-Prevention info.

In addition, Golden's Country music - Kenya and N. Africa's most requested songs - will keep listeners most-at-risk tuned in.

Starting as an Internet Radio station in 2007, Bounce expects

to have its 1st Kenya FM station in place in 1st Qtr 2008.

Donations are accepted now.

The Duo hopes its college mates will play a role.

Donate Now - Online - Your donations are tax-deductible.

Nkoki Johnson, 12

*"Do all that you can,
With what you have,
With the time you
have left, Where you
are now" - Nkosi*

*"You have 6500
people dying a day
out there!
How can we stand by
and let this happen?"
Menkir Esayas*

Dr. Menkir Esayas, Ph.D. - to Bounce Board

Having served in Africa for 40 years, this Com-

will advise Bounce's Board on how to go about reaching Africa's most-at-risk HIV/AIDS' potential victims.

Though he maintains his present job in St. Louis, Dr. Esayas says he happily will dedicate his free hours and knowledge to such a vital and important

cause. Neal says the medical community, including Stephen Hawes, Epidemiologist at UW, have been very supportive.

"We have the needed program to offer," says Menkir.

The use of radio in Africa is the fastest, most direct means to initiate Distance Learning.

Grants & Donations - Fundraising Drive

In order to act on these (2) two major challenges, the Environment and HIV/AIDS pandemic in Africa, we ask that you consider being a "Seed Partner."

"Seed Partners" plant the first seeds. What eventually grows to a full maturity, you may take

pride in having helped plant, nourish and grow.

It is not the size of donation that counts. It is important that we receive your pledge.

For the larger funds for which we believe we are well qualified, are out of reach without some

shoulders to stand on.

Please lend your shoulders. A small donation of \$1-300 will be immensely felt.

~

Address your check to either show "Environment" or "Africa AIDS." Thank you.

FOUNDATION

Bounce Foundation was chartered as a public 501 c 3 in 2002—it was the dream and product of thirteen twelve year old middle school girls on Mercer Island, WA. They wanted for foster a “safe place” to be and enjoy doing socially responsible projects. As a Cyber Café with full food service and soda foundation, stage, computers, video, and Ambassador program in 2002, Bounce has resumed its Ambassadorship role.

Today, with programs teaching youth and at-risk families how to protect and care for their bodies, how to protect and care for their environment, Bounce utilizes music, photography, film, video, the arts in helping other Foundations and organizations fund and drive their vital causes.

Menkir Esayas “Distinguished Service”

Congratulations: Menkir Esayas will be receiving the Alumni Distinguished Service Award from his alma mater, Concordia College in Moorhead, Minnesota, next week. Menkir was nominated and selected for this award based on his many years of achievement since his graduation from the college 30 years ago, including his 15 years of employment at LHM--serving 13 countries in Africa and the Middle East--and prior

to that his working with Lutheran World Federation. Since learning of this honor in May, Menkir has been very excited about receiving this award and describes being recognized by his academic peers for outstanding service as "one of the highest achievements of my life." Menkir is happy to receive the prestigious award in memory of his mother, who he says is his lifetime mentor and loving mother of 9 children. His profes-

sional life has been dedicated to Christian Communication as a result of his mothers' guidance in his youth. He will spend four days, October 4 - 7, in Minnesota for the celebration and is glad to have a chance to dress in his national costume (Ethiopia), which his mother wove when he earned the doctoral degree at Michigan State University in 1981, when he receives the award.
